

prt::Counter< T >

```
graph BT; A[prt::PerSecondCounter< T >] --> B[prt::Counter< T >];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box with a black border containing the text 'prt::PerSecondCounter< T >'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a gray box with a black border at the top, which contains the text 'prt::Counter< T >'. This indicates that 'prt::PerSecondCounter' inherits from 'prt::Counter'.
