

prt::EventSource< E >

```
graph BT; A[prt::EventSourceTemplate< E >] --> B[prt::EventSource< E >];
```

The diagram illustrates an inheritance relationship between two C++ template classes. At the bottom is a white box with a black border containing the text 'prt::EventSourceTemplate< E >'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a gray box with a black border at the top. The gray box contains the text 'prt::EventSource< E >'. This visualizes that 'prt::EventSourceTemplate' is a base class or template for 'prt::EventSource'.
